As soon as you enter the office of Dr. Fawcett, you'll notice the comfortable, relaxing surroundings that make you feel at home. His patient-centered practice is filled with "first class" amenities like blankets, neck pillows, hot towels, headsets for digital music or cable TV, and also a complete beverage bar.

Dr. Fawcett offers an extensive range of services that include porcelain veneers, dental implants, root canal treatment, full mouth rehabilitation, and the option of sleeping through your procedure with sedation dentistry. He also provides his clients with a number of non-evasive options for dental problems.

One of the most remarkable features of this practice is the revolutionary technology that allows Dr. Fawcett to restore damaged teeth in minutes with precision-made, natural tooth-colored ceramic restorations, while eliminating the inconvenience of impressions, labs and second visits.

Besides his 21 years of experience and expertise, what distinguishes Dr. Fawcett the most, is the personal attention, warmth and genuine concern he shows each individual client.

Dr. Fawcett is a member of the American Academy of Cosmetic Dentistry, the American Dental Association and the Texas Dental Association. Additionally, he has earned his Fellowship at both the Academy of General Dentistry and the International Congress of Oral Implantologists. Dr. Fawcett has also completed the extensive training at the Las Vegas Institute for Advanced Dental Studies.
